TESTIMONIALS

Saurabh Gupta
Director,
A-1 Fence Products Company Pvt. Ltd.

"I'd like to thank the organizers for focusing on the fencing industry. Shows like this are common in the US and Europe, but it's fantastic to see such an initiative in India. The fencing market here is growing rapidly, and this exhibition will grow along with it. It's an excellent start and will go a long way in supporting the industry."

"This is a unique exhibition as it focuses exclusively on the fencing industry and its applications. We participated last year in Chennai and had a great experience, and this year in Delhi has been even better. The Indian fence industry is in its early stages, with massive growth potential as customers become more informed about products and applications. The industry is on the path to grow multi-fold, and this expo plays a big role in driving that momentum."

Gaurav Gupta
Chief Marketing Officer,
Bansal Wire Industries Ltd.

"This is the first exhibition dedicated entirely to fencing products, which is a very good initiative. We've attended many exhibitions focused on wires, but this step forward to finished products is impressive. The fencing industry is evolving with new innovations like knotted fences and anti-climb solutions, and this expo is a great platform to showcase them. Overall, it's a unique and excellent experience."

Sidharth Agrawal
Managing Director,
Systematic Group

TESTIMONIALS

Paresh Bhimani
Managing Director,
Hindustan Corporation

"This is our second time participating in the India Fence Expo, and the experience has been wonderful. The event is tailored to our industry, making it the best platform for us to connect with the right audience. Unlike other broader exhibitions, this one aligns perfectly with our products and goals. For us, it's the No. 1 show for the fencing industry."

"The fencing industry has seen tremendous growth post-COVID. Since 2020, we've observed a massive boom, with sales and demand increasing significantly. Looking ahead, the industry is poised for another 30% growth over the next five years. India Fence Expo is a one-stop solution for everything related to fencing. It's an excellent platform to showcase our products to customers across India."

Priyam Jain
Business Head,
Secure Fencing

"India Fence Expo has been a positive experience. The visitors here are of high quality, and we've made great connections. With the ongoing infrastructure development in India, fencing has a bright future, and this expo is the right platform to support that growth. The potential of this industry is immense, and India Fence Expo is helping us unlock it."

K N Prabhakar
Head - Application Support Group,
Tata Steel
